

Our Bill Passes the Senate!

Contributed by Corey Tisdale

The bill to create the Mid-City Security District is through both the Louisiana House and Senate. We are waiting on Governor Jindal's signature to become law, and then on to the polls in November.

Once Jindal signs this legislation, the Mid-City Security District will still need to pass with more than 50% of the people in the district voting for it on November 4th (the same ballot as the Presidential Election).

Even though we will not have any money or authority until we pass a popular vote, we will have to start holding planning meetings, which will be open to the public. We will discuss how to structure our future meetings, elect officers, come up with a preliminary budget, and start getting feedback from the community. Be on the lookout for meeting announcements soon!
